Control in Power Electronics and Electrical Drives: Proceedings of the Second IFAC Symposium, Düsseldorf, Federal Republic of Germany, 3 - 5 October 1977 International Federation of Automatic Control

Control in Power Electronics and Electrical Drives contains the proceedings of the Second International Federation of Automatic Control Symposium held in Düsseldorf, Germany, on October 3-5, 1977. The symposium provided a forum for discussing the effects of converter control on the design of electrical machines.

Comprised of 102 chapters, this book begins by focusing on control systems employing electronic power converters, along with converter circuits and converter control procedures. The next section deals with the behavior of inverter-fed electrical machines and requirements imposed by converter operation. Topics covered include the status of power thyristors and rectifiers; the dynamic performance of converter-fed synchronous motors; and open loop control of a linear vernier reluctance motor in a stepping mode. Subsequent sections explore converter-fed alternating current and direct current drives; applications of controlled industrial drives; and solid-state energy conversion. A number of methods for analyzing power electronic circuits are discussed and illustrated.

This monograph will be of interest to electronics and electrical engineers.

From reader reviews:

Barbara Marburger:

Playing with family in a very park, coming to see the marine world or hanging out with friends is thing that usually you might have done when you have spare time, subsequently why you don't try matter that really opposite from that. Just one activity that make you not feeling tired but still relaxing, trilling like on roller coaster you have been ride on and with addition details. Even you love Control in Power Electronics and Electrical Drives: Proceedings of the Second IFAC Symposium, Düsseldorf, Federal Republic of Germany, 3 - 5 October 1977, you may enjoy both. It is fine combination right, you still want to miss it? What kind of hang-out type is it? Oh occur its mind hangout fellas. What? Still don't have it, oh come on its named reading friends.

Mary Oropeza:

Control in Power Electronics and Electrical Drives: Proceedings of the Second IFAC Symposium, Düsseldorf, Federal Republic of Germany, 3 - 5 October 1977 can be one of your beginner books that are good idea. Most of us recommend that straight away because this book has good vocabulary that could increase your knowledge in language, easy to understand, bit entertaining but still delivering the information. The article writer giving his/her effort to place every word into satisfaction arrangement in writing Control in Power Electronics and Electrical Drives: Proceedings of the Second IFAC Symposium, Düsseldorf, Federal Republic of Germany, 3 - 5 October 1977 yet doesn't forget the main position, giving the reader the hottest in addition to based confirm resource facts that maybe you can be one among it. This great information may drawn you into brand new stage of crucial imagining.

Kevin Pinkney:

In this age globalization it is important to someone to get information. The information will make anyone to understand the condition of the world. The health of the world makes the information much easier to share. You can find a lot of references to get information example: internet, newspapers, book, and soon. You can observe that now, a lot of publisher this print many kinds of book. The particular book that recommended for your requirements is Control in Power Electronics and Electrical Drives: Proceedings of the Second IFAC Symposium, Düsseldorf, Federal Republic of Germany, 3 - 5 October 1977 this guide consist a lot of the information on the condition of this world now. This specific book was represented how does the world has grown up. The words styles that writer make usage of to explain it is easy to understand. The writer made some exploration when he makes this book. That's why this book appropriate all of you.

Robert Eslinger:

Is it a person who having spare time and then spend it whole day by simply watching television programs or just lying down on the bed? Do you need something new? This Control in Power Electronics and Electrical

Drives: Proceedings of the Second IFAC Symposium, Düsseldorf, Federal Republic of Germany, 3 - 5 October 1977 can be the respond to, oh how comes? The new book you know. You are thus out of date, spending your time by reading in this completely new era is common not a nerd activity. So what these books have than the others?
