Redefining Information Warfare Boundaries for an Army in a Wireless World Isaac R. III Porche, Christopher Paul, Michael York, Chad C. Serena, Jerry M. Sollinger

The U.S. Army is studying ways to apply its cyber power and is reconsidering doctrinally defined areas that are integral to cyberspace operations. An examination of network operations, information operations, and several other, more focused areas across the U.S. military found significant overlap and potential boundary progression that could inform the development of future Army doctrine.
