Elections in Pennsylvania: A Century of Partisan Conflict in the Keystone State

Jack M. Treadway

Elections in Pennsylvania: A Century of Partisan Conflict in the Keystone State Jack M. Treadway

The most comprehensive state election study ever undertaken, *Elections in Pennsylvania* provides data and analysis for more than 13,000 general elections and more than 6,000 primary elections held in the state between 1900 and 1998, with a postscript examining in less detail the elections of 2000 and 2002. Included are all elections for president, governor, U.S. senators and representatives, statewide offices, and members of the General Assembly. The extensive period of time covered allows the author to provide an important historical perspective on electoral trends, distinguishing what are genuinely new developments in electoral dynamics and voting behavior in recent decades from what are continuations of patterns earlier in the century.
