Rents to Riches? (World Bank Publications) Naazneen Barma, Kai Kaiser, Tuan Minh Le, Lorena Viñuela

This volume focuses on the political economy surrounding the detailed decisions that governments make at each step of the value chain for natural resource management. From the perspective of public interest or good governance, many resource-dependent developing countries pursue apparently short-sighted and sub-optimal policies in relation to the extraction and capture of resource rents, and to spending and savings from their resource endowments. This work contextualizes these micro-level choices and outcomes.
