Seasons Blexbolex

In this graphically stunning picture book, Blexbolex explores the cyclical nature of time by looking at the seasons. Using objects, landscapes, activities, and different types of people that are associated with each season (such as a skier, a swimmer, a roasted chestnut seller), Blexbolex evokes the sense of permanency given to life by its cyclical nature, despite the fact that time is always passing. The purpose of this book is to encourage observation of the world around us and lead the reader to form all sorts of logical and imaginative associations having to do with the seasons, the cycles of life, and time.

An illustrator of graphic genius, **Blexbolex** entered art school with the intention of becoming a painter, but left having discovered his talent as a silkscreen artist. Since then, he has worked regularly with book publishers in France and Germany, as well as for the press. In 2009 he received the prestigious Golden Letter award for best book design throughout the world.
