Inheritance Natalie Danford

Natalie Danford's exquisitely written novel *Inheritance* asks a simple question: How well do we know our parents? One half of the story begins after the death of Luigi Bonocchio, an Italian immigrant whose daughter, Olivia, discovers a mysterious deed among his possessions. The deed is to a house in Urbino, Italy---the hometown he barely spoke of. Intrigued, Olivia travels there. At first she is charmed by the historic city, the relatives she's not met before, and the young lawyer she's hired to help her investigate the claim. But when Olivia tries to sort out the deed, she is met with a puzzling silence. Everyone in the town remembers her father, but they are not eager to tell his story. However, Luigi tells his part of the tale directly to the reader as the chapters alternate between Olivia's search for the truth and Luigi's account of his history. By the end of this skillfully constructed book, the reader understands both sides of a heartbreaking yet ultimately satisfying love story.
