Youth Sport Policy in Austria. Analysis and Development of Quality Indicators at National Level

Ursula Witzani

Master's Thesis from the year 2015 in the subject Sport - Sport Economics, Sport Management, grade: 1,8, Sport Academy Cologne (Institut für Europäische Sportentwicklung und Freizeitforschung), language: English, abstract: The aim of this research lies, besides an analysis of the situation of the youth sport system in Austria, on the development of quality indicators of youth sport on a national level. An extensive review of existing literature on youth sport policy at national and European level will lay the fundamental basis for further research. Sports policy and policy-making-processes theory will be displayed in the theoretical framework. The research questions therefore investigate what quality criteria could be proposed to fulfill an effective youth sport policy. Therefore, preliminarily the current situation and structures of the youth sport in Austria will be analyzed as groundwork. Empirical data of conducted experts' interviews within the area of youth sport will be evaluated.

Jugendsportpolitik stellt bis dato ein sehr wenig erforschtes Gebiet in der Sportwissenschaft dar. Die meisten Studien die Jugend und Sport behandeln untersuchen quantitativ Sportpartizipation oder den gesundheitlichen Zustand der Jugend eines Landes. In der Literatur wird viel über den erschreckend schlechten Gesundheitszustand der Jugendlichen diskutiert, doch genaue Untersuchungen die den Hintergrund durchleuchten, wie das Jugendsportsystem aufgebaut ist und funktioniert, gibt es kaum. Genauso fehlen in der Literatur generelle Qualitätsindikatoren, was eine qualitativ hochwertige Jugendarbeit ausmacht. Aus diesem Grund hat diese Masterarbeit das Ziel, eine systematische Darstellung der Jugendsportpolitik in Österreich sowie auf europäischen Level zu präsentieren. Des Weiteren werden Qualitätskriterien für die nationale Arbeit im Jugendsport durch die Empirie herausgearbeitet.

Der empirische Teil umfasst auf der einen Seite eine sekundäre Datenanalyse durch umfassender Literaturrecherche. Primäre Daten, auf der anderen Seite, werden durch sieben Experteninterviews gewonnen. Die transkribierten Interviews werden analysiert und in Bezug auf die Forschungsfragen mit Hilfe der Analyse Software MAXQDA 11 interpretiert.

Die Ergebnisse zeigen eine umfassende Darstellung des Jugendsportsystems in Österreich und auf europäischer Ebene. Bezüglich der Erarbeitung von Qualitätsindikatoren bringen die Erkenntnisse aus Literatur und der empirischen Untersuchung ein umfassendes Modell hervor.
