## **Ensamblajes, perspectivas y problemáticas Final (Spanish Edition)** Horacio Medina

A través de una óptica que hace de la interdisciplinariedad su lente privilegiado, los textos que componen este libro transitan por distintas posibilidades de reflexión acerca de la construcción de las subjetividades en una era de inmensas complejidades. En una primera parte, los trabajos se centran en la perspectiva biopolítica del análisis de fenómenos contemporáneos tanto en dimensiones que contemplan lo corpóreo como elemento de articulación con una teoría del poder, como en abordajes que contemplan los desafíos actuales de la inmaterialidad virtual. Una segunda parte tiene como eje el pensamiento de Lévi Strauss; sus aportes a antropología constituyen en este caso un centro a partir del cual plantear un diálogo con otras escuelas, con otras corrientes y otras disciplinas. Finalmente, la tercera parte del libro se aboca a la discusión del concepto de comunidad, de importancia fundamental para el pensamiento filosófico y antropológico, en una búsqueda de resignificación de sus sentidos que considere su incidencia en la creación de subjetividades.
