Blush sensuality level: This is a sweet romance (kisses only, no sexual content).

When a man washes up on Riki's falconry island during an electrical storm, he claims to be Viscount Belmont, a member of the British War Office during the Peninsular War, and identifies her missing cousin David as his assistant. Then one of David's recreation battle scenes mysteriously changes, showing the French at an advantage.

The fear that David was dragged back through time and is using his knowledge to change history terrifies Riki. She and Belmont risk setting sail in the storm to travel back to 1812 to prevent David from doing any more damage. But her determination to bring her cousin back to the present becomes a torment as she and the viscount realize theirs is a love that spans the ages—though they will soon be separated by two hundred years.
