The End of Manhood: Parables on Sex and Selfhood John Stoltenberg

In this practical follow up to *Refusing to be a Man*, John Stoltenberg uses a combination of case studies, autobiography, checklists and discussion points, to speak directly to men about how the social construction of manhood operates in everyday relationships and to show how these same dynamics drive the behaviour of gangs, race-hate groups, and international imperialism. Readers will find here new perspectives on intimacy, gender, and violence and be pushed to re-examine their ideas of manhood and gender identity generally. Stoltenberg's new introduction sets the book in academic context, summarising the game theory of gender which underlies all his work.
