Law for Architects: What You Need to Know Robert F. Herrmann

An essential reference for practitioners, emphasizing how legal concepts affect the process of bringing architectural vision to reality.

Law for Architects: What You Need to Know guides design professionals through the daunting landscape where design and construction meet the legal system. It provides an introduction—written in clear, reader-friendly language—to issues that arise at every stage in the practice of architecture. For architects starting or building their own practice: Why do I need a written agreement with my clients? Why do I need insurance? How do I organize my firm? For seasoned architects considering retirement: How do I transfer ownership in my company? How can I benefit from the good will I helped to build? For students who want to learn more about the practicalities of starting out: Why is it important to have a license? Isn't it enough to have a degree in architecture? What are my rights as an employee? It also addresses the perennial questions that concern architects: How do I protect myself from being sued? How do I protect my intellectual property rights in my work? and much more.

Law for Architects identifies the legal issues that lurk in every corner of your design practice and helps you figure out what questions you need to ask.
