Re-Engineering The Manufacturing System: Applying The Theory Of Constraints, Second Edition, Revised And Expand

Robert E. Stein

Re-Engineering The Manufacturing System: Applying The Theory Of Constraints, Second Edition, Revised And Expand Robert E. Stein

An information systems trailblazer in the domains of decision support and factory and supply chain synchronization, the Second Edition of Re-Engineering the Manufacturing System stays true to its title, once again bestowing uniquely straightforward instructions for designing, installing, and operating manufacturing information systems. This updated and expanded source takes care to clarify the often blurred concepts of synchronization and optimization, and offers implementation advice from four discrete angles to yield better bottom-line results. It shows how to exploit an information system, rolling ERP system implementation into the TOC framework to promote profit materialization.
