Innovation and Entrepreneurship: A Growth Model for Europe Beyond the Crisis Daria Tataj

To increase productivity and create value, businesses and companies need to innovate. But how is innovation created? And how can entire regions, countries, and continents innovate in a fast changing world where the old economies have broken down? Dr. Tataj proposes a replicable model for innovation based on a concept of an entrepreneurship-driven Knowledge Triangle: a coordinated network of research institutes, universities and businesses. Analyzing networking innovation models in Europe, the United States, and China, *Innovation and Entrepreneurship* is the first comprehensive attempt to explain a new model of collaborative networks designed to boost growth in Europe.
