*Sustaining the Writing Spirit: Holistic Tools for School and Home, second edition* is aimed at all educators, at school or home, seeking non-traditional ways to enliven the growth potential of the whole learner. Schiller urges educators to accept a holistic orientation for learning -- one that combines the physical, social, emotional, and spiritual, with the intellect, rather than primarily basing learning on the intellect. Included are details on background, historical development, and philosophical explanations of holistic education, including a timeline of key people and ideas. This new edition also addresses sustainability and spirituality as the core of holistic learning, and the teaching activities provide context and processes for writing that encourage activating multiple intelligences. It also has a cross-disciplinary quality and could be used in a number of educational settings.
